

Discover Etere ETX and 4k Capabilities at Inter Bee 2015

Etere will be showcasing its portfolio of quality solutions including 4K capabilities at Inter BEE 2015 at Hall 2, Booth 2512 (Kondo Systems) from November 18th to November 20th in Makuhari Messe, Japan

InterBEE 2015 event

4K Software support

Etere at InterBEE 2015:

Date: 18-20 Nov 2015

Category: Video and Broadcast Equipment

Hall: Hall 2

Booth: 2512 (Kondo Systems)

Location: Makuhari Messe in Chiba, Japan

Since 1965, Inter BEE has been a hub for information dissemination and exchange organised annually by the Japan Electronics and Information Technology Industries Association, for a wide range of stakeholders in the media and broadcast industries. Etere will be exhibiting at the Kondo Systems booth during Inter BEE 2015. We will be showcasing our latest 4K supported solution, Etere ETX.

Discover Etere Automation

Since 1987, Etere has been consistently developing quality broadcast solutions for customers all around the world. Etere automation software provides end-to end solutions including playout, scheduling, traffic, media management and more. Its flexibility and modularity is customisable for stations of any size or type. Etere innovative workflow allows you to increase productivity and quality while reducing costs.

Discover Etere ETX and 4K Capabilities

Etere ETX is an exciting and new roll out with 4K capabilities. It is the most advanced, tightly integrated and cost-efficient video management system on the market, completely based on IT technology. It is a complete channel in a box with full IP (in and out) capabilities, enabling you to drive the most popular HD/SD digital video/audio/graphics platforms without using middle-ware or proprietary hardware.

Etere ETX support any resolution with full up and down conversion. We invite you to explore our solution at the Kondo Systems booth during the show.

We look forward to seeing you at Inter BEE 2015!

About Etere

Etere, a leading software developer and system integrator, was founded in 1987 with the mission to design a portfolio of quality solutions for the broadcast and media industry. Committed to providing quality and service excellence, Etere has achieved great success as a worldwide leader with distribution networks in Europe, Middle East, Asia Pacific and South America. Etere's team of engineers represents a unique cross section of broadcast & IT experience. The company has its headquarters in Singapore and development centre in Italy.
