### A Complete Solution for all your Closed/Open Caption Requirements

Etere manages all your closed caption and subtitling requirements from live playout to production and post-production, providing the best returns for your investment. Etere provides all the format compatibility you need in a single licence, including CEA 708, CEA 608, DVB and ARIB closed captioning. It is one of the most advanced closed caption solutions available on the market with cutting edge features including web preview and Google Speech-to-text for up to 120 languages/variants. It is also extremely fast, closed captions can be inserted or edited just before broadcast. With Etere, you are empowered with a complete solution that provides all the tools you need to prepare, control, embed, manage, verify and deliver closed and open caption.
