With the plugin for Adobe Premiere Pro, users are able to access media sequences and projects directly from the **Etere Media Asset Management (MAM)** with a single login. Beyond viewing, users are able to edit in Adobe Premiere Pro and save the changes directly in Etere Media Asset Management. Etere features a centralized database that enables multiple editors to browse and preview assets seamlessly. To restore files, users are able to access **Etere HSM** from the same console. Etere HSM is also cloud compatible and equips users with software tools to access the files needed quickly. Beyond the newsroom, **Etere Nunzio Newsroom** enables users to publish news stories quickly and easily from the web. For playback, **Etere ETX** provides 4K capabilities and is ideal for both IP and SDI playback.
