Etere
a consistent system

RADIO LIVE

Our solution to a streamlined fuss free radio broadcasting experience. Built on the experience of leading radio broadcasters, Radio-Live is made with the user in mind.

(Radio Live)

(Etere Radio Live)

Designed for convergence and fully automated, **Radio-Live** allows users to ingest and produce content for Radio, TV, Web and Mobile, all in a single system. Built for both big and small broadcasters, organise your tracks, build stacks, schedule your day, make it happen with **Radio-Live**. Radio broadcasting is made easy with **Radio-Live**.

What makes Radio-Live different?

Vast Playout options
Etere Radio-Live can make live, instant changes to your broadcast, and schedule advertisements with customisable graphics, for a single track or the entire channel. The flexible manipulation of media item playback, simultaneous previews, and high degree of control over characteristics and specifications of the output allow you to make the most out of your broadcasts.

Automatic Video Switching
Automatically switch cameras to focus on whoever is speaking. Set and forget functionality that can handle every step of the live switching process. It's like having a director in studio.

Flexible Scheduling
The fully automated system can help to pick out songs according to specifications you set, and prepare the entire day's schedule, without you having to lift a finger. Schedule advertisements beforehand, or even edit them live. The highly flexible scheduling function allows you to arrange your advertisements just the way you like them.
