

# ETERE ETX-M MULTIVIEWER

The industry`s best Ultra HD multiviewer that lets you monitor unlimited video sources on a single display! With full frame re-synchronization on every input, monitor any combination of SD, HD and Ultra HD formats and frame rates all at the same time, on the same display.

**Etere ETX-M Multiviewer** lets you view multiple videos, live-feeds, and more, all from the same screen, all at once. The crisp SD, HD and Ultra HD windowed display helps you to view your channels live and monitor your broadcasts with ease. Allowing for unlimited feed inputs, the sky is the limit with the powerful **Etere ETX-M Multiviewer**. No matter your workflow, **Etere ETX-M Multiviewer** can interoperate seamlessly, saving you space and lowering operating costs.

## Playlist Next Event Display

The next event display that previews what's playing next, allowing for edits and eliminating the need to check the playlist. Multi-channel monitoring has never been easier.

## High Performance

Deliver large quantities of content in multiple formats and broadcast it across devices quickly. No longer be limited by your hardware. Work with multiple channels, view the next event in the playlist and monitor the event change time all at once. Manage up to 9 display

PRODUCT 8/7/2019

## ETERE ETX-M MULTIVIEWER

monitors and unlimited input sources at any point of time.

### Key Features

- ◆ View unlimited SD, HD, and Ultra HD sources simultaneously
- ◆ Integrated with Etere ETX Legacy Converter which converts SDI in and SDI out in IP or NDI streams with very low CPU impact
- ◆ Integrated with Automated Loudness Control which monitors and corrects transmission volume errors as well as prevents excessive audio jumps
- ◆ Playlist next event display
- ◆ High redundancy, acts as a gateway to external I/O, every I/O is independent
- ◆ Manage IO sources -- UDP/RTP/RTSP/RTMP/SDI(require I/O card)/SMPTE 2110(require I/O card)
- ◆ Integrated with automated and instant email notifications of errors
- ◆ Extremely easy to setup with only a Windows PC configuration
- ◆ Professional quality multi-signal live preview and recording
- ◆ Up to 9 display monitors
- ◆ High redundancy with fault-resilient performance
- ◆ Automatic and instant error notifications
- ◆ Preview of next video and graphic event
- ◆ H264 and H265 encoding/decoding
- ◆ Multiple clocks display allows more time zones
- ◆ Etere ETX-M Multiviewer tally display system is automatically connected to your Etere ecosystem.

### Automatic Mail Alerts

- ◆ Detailed mail settings can be configured to provide all reports and errors automatically including visualization and signaling of freeze, black, silence, PID lost, service lost and input lost behavior
- ◆ Automatically sends alert emails and log files to the configured email addresses when an error is detected

### Media Management

Users are also equipped with email notifications alerts, log reports and real-time preview for a truly automated solution. With real time analysis, rest assured that you will always be able to check in on your broadcasts.

### Seamless Integration

With **Automation**, **Ad insertion**, and **Multiviewer**, get the best user experience. Fully integrated with your playlist, enjoy most of the work, a single price solution with all the features of a modern system. Able to use the existing Multiple Gigabit connection.
