

# Etere at IBC 2000

At IBC 2000 Etere presents its TV and Radio Automations alongside its solutions that provide control over Doremi Videoserver, Elca video router, and sony VTR.

(ibc 2000)

Customisable solutions that meet the user's needs, streamline your workflow with Etere. Known for its reliable and effective solutions, Etere is presenting its Radio and TV Automation solutions, as well as its control over current industry hardware such as the Doremi Video server, Elca Video Router and the Sony VTR. Approach us to learn more about the Etere solution.

(etere panel)

The **Etere Radio Automation** is able to maximise your workflow by centralising all necessary actions in a workflow lifecycle in one system. Record and edit your audio, schedule your music, keep track of the billing and audience traffic with the Etere Radio Automation. Integrated with an audio data server, users can store and retrieve their audio safely. The Etere Radio Automation is satellite accessible, allowing off location stations to retrieve and broadcast information.

(etere panel)

The **Etere TV Automation** allows users full control over the broadcast control room and seamlessly prepares content for broadcast. Able to control VI, Profile, LDR 110, RD72-RD73-RD74, and VTR, the automation can be operable in any control room. With access to the video cart and digital card, users can retrieve content easily. The satellite connection allows for off location stations to retrieve information and broadcast their content easily. The entire automation can be controlled via remote, streamlining the broadcasting process.

Schedule an appointment with the Etere team at IBC 2000 for live demonstrations and in-depth product consultations to learn more about Etere's modular, scalable, workflow-based solutions.
