EA6842 ETERE ONSITE INSTALLATION

Etere offers a complete suite of professional services to help your company to manage integrations, improve operational efficiency and to unleash the full benefits of your broadcast and production systems.

The server room

Etere on-site installation is a professional service that complements **Etere Remote Installation** to ensure your company get the full benefits of your broadcast systems. Our dedicated and experienced engineers provide in-depth consultation, installation, configuration, support and training to our valued customers to help them to achieve reliable and actionable results.

The integration of services equip our customers with a more efficient and cost-effective way to fully implement Etere products. In addition, the installation is referenced from the customer's order and the work order includes customer's requirements, environment and specifications for a truly customized solution. Understanding our customers' business needs is of top priority for Etere. A detailed installation document is prepared to explain to the customer the various project phases, technical and hardware requirements and the final installation results. On site, our experienced technician will follow the document guidelines to set up the installation according to the customer's requirements. Our engineers are highly qualified with years of experience and are constantly updated on the latest technologies. They can quickly assist and resolve any issues encountered during the installation to ensure smooth operations flow at every stage of the workflow. Your success matters to us and we aim to help you with the journey. With Etere, you will get results that you can trust.

About Etere

Since its beginnings in 1987, Etere has been preparing users for the future. Etere is a worldwide provider of broadcast and media software solutions backed by its mark of excellence in system design, flexibility, and reliability.
