

Etere Radio-Live Supports Ember+ Protocol

Etere Radio-Live supports Ember+ Protocol, enhancing integration and control of Etere with other technologies. Etere empowers users to control their broadcast infrastructure within a single software seamlessly. This software update is free for all Etere users on a support contract.

Radio Live

Etere logo

Etere Radio-Live supports EMBER+ protocol, facilitating seamless integration with third-party broadcast control and automation systems. The integration enhances the customization of configurable control functions and status reports, including editing input and output settings, giving Etere users enhanced monitoring and management controls. This software update is free for all Etere users on a support contract.

EMBER+ is a control protocol developed by Lawo and L-S-B Broadcast Technologies.

Key Benefits

- Flexibility to control and save presets
- Switch complex routes
- Access detailed user feedback
- When EMBER+ compatible equipment is connected to a network along with an EMBER+ server, the controllable parameters of the devices are automatically addressable over the network via the EMBER+ protocol
