Etere has been pushing the boundaries of innovation, breaking down silos and consistently delivering enduring quality for the past 36 years. The support of our valued distributors, partners, customers and friends continues to fuel our inspiration. Our relationship with you is a key factor in our success story and a testament to the collaborative spirit that defines Etere.

As we continue to navigate the evolving landscape of post-pandemic work dynamics, technological advances continue to move at an unprecedented pace. The transformative power of Artificial Intelligence (AI) stands out, revolutionizing efficiency and convenience. This year, we proudly announce the integration of revolutionary face recognition technology into our Media Asset Management, elevating search functionality and optimizing your media library.

However, in embracing cutting-edge technologies, it is crucial to balance their potential with the need for creative flexibility. Etere consultants are ready to help you formulate the best media management strategy for your business needs. Our support team remains at your service 24/7, even amidst the holiday festivities.

There is one thing that remains consistent at Etere. Our software is designed as an open system, offering you the freedom to select the configuration that best aligns with your business requirements. Whether you prefer on-premise, hybrid, private, or public cloud setups, Etere empowers you with the freedom to choose.

Furthermore, Etere users can adopt either a Software as a Service (SaaS) model or opt for a CAPEX model to purchase the Etere Ecosystem software as a permanent license. Notably, Etere has never discontinued a product or compelled customers to alter their systems to move to the cloud. This is a commitment from Etere to all our customers.

This Christmas season, all of us at Etere extend our warmest wishes for a Merry Christmas and a prosperous New Year ahead. Thank you for being an integral part of our journey.
