

Etere and Blackmagic DaVinci Resolve: A Seamless Integration for Unmatched Editing Power

Etere has achieved a new milestone by becoming fully compatible with Blackmagic DaVinci Resolve. This integration empowers content producers to leverage the professional-grade editing capabilities of DaVinci Resolve while maintaining seamless connectivity with the Etere database for effortless media asset retrieval. This advancement revolutionises content editing, making it more streamlined and efficient than ever before.

Integration

Etere Web

Integrating **Etere Ecosystem** and Blackmagic DaVinci Resolve empowers content editors to access Blackmagic's professional-grade editing, colour correction, effects, and audio post-production tools directly from the Etere interface. After a login authentication, users can view all available assets and effortlessly insert segments from Etere MAM into a DaVinci Resolve sequence. Using a unified interface, they can also finalize a DaVinci Resolve sequence and upload it back to Etere MAM.

Manage your Media Assets Effortlessly with the **Etere-Davinci-Resolve Integration Panel:**

- **Etere Media Asset Management:** Search and preview MAM assets easily, link assets without switching screens, search by asset code, and integrate task lists
- **Etere HSM:** Perform partial file restores easily
- **Etere Promo Placement:** Seamlessly receive new promos
- **Etere Nunzio Newsroom:** Retrieve rundown stories, manage editing and enable fast content publishing
