

Etere 35 Expands Support for Intel VPL Encoders: Unlock Advanced GPU Encoding

Etere 35 extends its interoperability to support Intel VPL Encoders, now you can enjoy 4:2:2 GPU encoding on Intel cards like the Intel Arc series. This upgrade is available at no extra cost for all customers on a support contract.

Intel logo

With the integration of Intel VPL, Etere now offers access to a broader range of media and integrated graphics functionalities.

Commitment to Interoperability

Etere is dedicated to expanding its interoperability through partnerships with leading technology providers. This commitment not only enhances flexibility but also future-proofs our ecosystem, ensuring you have the tools needed to stay ahead in a rapidly evolving landscape.

About Intel® Video Processing Library (Intel® VPL)

The Intel® Video Processing Library (Intel® VPL) is part of a multilayer media portfolio that provides advanced access to specialized media hardware, plus encode, decode, and video processing features on Intel GPUs.
