WEBRTC

Etere 35 has added compatibility with WebRTC 2.0, this project is currently in the testing phase and will be launched in the near term as a free upgrade for all customers on a valid support contract. Stay tuned for more updates coming your way soon!

Here's what you can look forward to:

Key Benefits of WebRTC 2.0
■ **Secure Communication:** Enjoy voice and video encryption, perfect for secure connections over Wi-Fi
■ **Seamless Integration:** Use voice and video directly within web pages
■ **Adaptive Streaming:** Supports multiple media streams and adjusts automatically to network conditions
■ **Interoperability:** Works with various VoIP and video systems, including SIP, Jingle, XMPP, and PSTN
■ **Easy Development:** Streamlined for application development, requiring minimal technical expertise
■ **Low Latency:** Experience high-speed communication with low latency

About WebRTX
WebRTC allows you to add real-time communication capabilities to your application that works on top of an open standard. With its support for a wide range of video, voice, and generic data to be sent, it facilitates the development of powerful voice and video-communication solutions. This technology is available on all modern browsers as well as on native clients for all major platforms.

Stay tuned for more updates as we finalize testing. For a personalized product consultation, feel free to reach out to our product specialist.

About Etere

Since its beginnings in 1987, Etere has been preparing users for the future. Etere is a worldwide provider of broadcast and media software solutions backed by its mark of excellence in system design, flexibility, and reliability. The revolutionary concept of the Etere Ecosystem promotes real-time collaborations and enhances operational efficiency across the enterprise. Etere Ecosystem software solutions manage the end-to-end media workflow and feature an integrative Web and Windows customizable architecture to fit perfectly in any system.

Etere delivers on its service excellence commitment with 24/7 worldwide support and inclusive software updates. Etere digital technologies and market-proven remote/on-site services, such as consultancy, training, installation, and demonstrations, are ready to run with your business no matter where you are. Etere enhances your adaptability for the future and empowers you with the most innovative software tools to drive your business to greater heights.
