Cloud Framework

Create your private cloud system and connect with any public cloud, with Etere you can go in the cloud now! Please refer to the attachment for more details.

Etere Cloud

ETERE successfully applies the cloud concept to the video industry, taking your traditional IT resources to a higher level, enabling your organization to move high to the cloud, extending significantly the IT landscape and boundaries of your broadcast workflow and replacing most of your traditional physical devices with virtual IT resources interconnected under a true, reliable, powerful and easy to use cloud environment.

ETERE's private cloud-storage and cloud-computing infrastructure gives you a virtualized storage pool with unlimited MAM functionality and capacity to improve the management and delivery of your content.

About Etere
