About Broadcast Convention – East Africa 2026

The Broadcast Convention – East Africa 2026, incorporating the Content Marketplace – East Africa, is a gathering of industry leaders, innovators, content creators, content distributors, and stakeholders from across the East Africa region and the continent. The event provides a platform to explore the latest trends, challenges, and opportunities in broadcasting and digital media. With a rapidly transforming digital landscape, broadcast media practitioners from across the region are seeking new ways to optimise and deliver their services. Industry players across the value chain aim to fully understand the dynamics of the new digital media environment, particularly the integration of AI, and how it can be used to deliver enhanced value to consumers.

With the theme 'Reimagining Next: AI, Cloud, and the Future of Broadcast Media In Africa', the 2026 edition of the convention offers a unique blend of keynotes, panels, and networking sessions that foster collaboration, inspire new ideas, and promote the sharing of best practices.

Taking place in Nairobi, Kenya, the event will explore cutting-edge advancements and innovative practices in satellite broadcasting, cloud-based delivery, OTT services and content management. Throughout these sessions, there will be an ongoing content showcase.

Offering a unique blend of keynotes, panels, exhibition, and networking sessions that foster collaboration, inspires new ideas, and promotes the sharing of best practices, the 2026 edition of the convention will explore cutting-edge advancements and innovative practices in satellite broadcasting, cloud-based delivery, OTT services, and content management — with a special focus on the opportunities and challenges of Artificial Intelligence in the broadcast media ecosystem.
