

## Powerpoint: Etere for Geographically Distributed System

Please view attachment for the full presentation on Etere for Geographically Distributed System.

Etere logo

Etere allows you to choose the best of the breed of the technologies to share, search use any content anywhere.

There are 2 different technologies to share content

- Federated search
- Far data handling

In addition of those Etere workflow allows easy replication of data, as proxy to improve the User Experience.

The ETERE solution that enables organizations with multiple sites spread across different geographical areas to share, search and use content anywhere. In this presentation ETERE gives an overview on the two available integration technologies: Federated Management and Far Data Handling.
