

## Etere.com Launches File Upload and Download Feature

Etere has launched a new feature on the reserved area of its website that enables customers to upload and download files/logs in their account folders.

Reserved Area Menu

Upload Files on Reserved Area

Etere logo

The Etere team is always looking for ways to innovate and we are excited to announce a new feature on [www.etere.com/Reserved](http://www.etere.com/Reserved) for all customers. The new feature serves as a centralized repository for customers to upload and download files. All updates are reflected in real-time, making it a fast and convenient way for customers to send and receive files from any location as long as they are connected to the internet. All files from the Etere Support Team will also be delivered via this channel.

To access this feature, customers need to log in to the reserved area of the Etere website with their credentials. Within their personalized area, they will be able to access the **"Upload in My Files"** and **"Upload Logs"** links. The folders help users to organize their logs and files for easy retrievals. The feature facilitates a one-click access to files stored locally on the customer's PC or network drive. Customers will also be able to download files uploaded by the Etere support team via **"My Files"** link on the same menu.

Moving forward, we will continue to provide the latest news, notifications and updates through our website which serves as a one-stop resource center. We strive to create the exceptional experience you are looking for when you visit our website so stay tune for new content and features!

If you have any feedback or questions, please write to us at [info@etere.com](mailto:info@etere.com)

### About Etere

Etere was established in 1987 in Italy and it is amongst the worldwide leaders in Media Asset Management (MAM) and channel-in-a-box software solutions.
