Customer Area on Web

Dear Customer,

As part of our cyber defense strategy, we have increased the security of our website. Here are the changes that will impact you:

- Password of customer's account needs to be changed once every **200 days**
- Password must have at least **6 characters**

We believe in aligning our IT security with the industry's best practices to give us the best chance of detecting any cyber attack early. We hope that you will appreciate this activity to prevent any unauthorized personal data breaches.

If you have any issues with your password activation, please contact Etere Customer Support at support@etere.com
