Maximize your audience engagement by leveraging Etere OTT software. Seamlessly optimize, orchestrate, and monetize your broadcasts to extend your station's reach across multiple platforms. With Etere OTT, you can unlock your media library's full potential like never before.

Etere OTT Delivery

OTT (Over-the-Top) technology enables the delivery of streamed content via internet-connected devices, bypassing traditional broadcasting methods. It has transformed the entertainment industry, giving viewers unparalleled control and flexibility in content selection. Etere's advanced OTT solutions empower broadcasters to capitalize on this shift by effectively delivering media assets across various OTT platforms and devices.

Etere OTT Delivery

The broadcasting industry is known for its rapidly evolving landscape; Etere's firm grasp of the industry's trends and innovative technologies enables you to keep up the pace. Etere users can effortlessly synchronize the automation system to curate dynamic playlists. Moreover, they can stream multiple sub-playlists from the primary playlist, ensuring content is swiftly delivered directly to the CDN. Even with hundreds of OTT channels, Etere manages the workflow seamlessly.

Etere Multi-Bitrate Encoder

OTT allows the generation of multiple advertising playlist from a single content to target specific audience groups across a wide range of device including smart TVs, game consoles, streaming boxes and sticks, handheld devices and other connected devices. Etere Multi-Bitrate Encoder offers integrated advertising management with SCTE and Google Dynamic Ad Insertion markers for OTT advertising. It also supports HLS and Dash streaming protocols.
