# EA6772 ETERE MAM NLE INTEGRATION WITH DAVINCI RESOLVE (UNLIMITED LICENSE)
With the seamless integration between Etere Ecosystem and BMD Davinci Resolve, content editors can access the professional editing, color, effects, and audio post-production video editing software by Blackmagic directly from the Etere interface. With a login, every user can see all available assets and start connecting with Etere database.

Etere-Davinci-Resolve Integration

Etere-Davinci-Resolve Integration

Etere Ecosystem

Integrating **Etere Ecosystem** and Blackmagic DaVinci Resolve empowers content editors to access Blackmagic's professional-grade editing, colour correction, effects, and audio post-production tools directly from the Etere interface. After successful login authentication, users can view all available assets and effortlessly insert segments from Etere MAM into a DaVinci Resolve sequence. Using a unified interface, they can also finalize a DaVinci Resolve sequence and upload it back to Etere MAM.

Manage your Media Assets Effortlessly with the **Etere-Davinci-Resolve Integration Panel**:
■**Etere Media Asset Management**: Search and preview MAM assets easily, link assets without switching screens, search by asset code, and integrate task lists
■**Etere HSM**: Perform partial file restores with ease
■**Etere Promo Placement**: Seamlessly receive new promos
■**Etere Nunzio Newsroom**: Retrieve rundown stories, manage editing and enable fast content publishing
Nunzio Integration

Etere plug-in for BMD Davinci Resolve gives Newsroom editors the capability to push their edited content into rundowns quickly thanks to a seamless workflow integration between Etere MAM and BMD Davinci Resolve based on:
☐ Direct access to the archive without exiting BMD Davinci Resolve
☐ Easy search of stories with missing video
☐ A quick search of rundowns and delivery of rendered content
☐ Efficient editing that eliminates unnecessary transfers

MAM Integration

Etere MAM plug-in for BMD Davinci Resolve brings a more flexible way to search and preview media assets without switching screens. Etere users can link sequences in BMD Davinci Resolve directly to new and existing asset forms in Etere MAM. They can export the markers between BMD Davinci Resolve and Etere, eliminating technical barriers and enabling greater operational efficiency. In a typical scenario, users may open sequences and projects from the Etere MAM database in BMD Davinci Resolve and save files or projects back to Etere MAM.

Enhanced Security

The Etere extension panel for BMD Davinci Resolve provides a robust access system that ensures the security of the MAM system. Users authentication in the Etere system runs through a custom login policy or an automatic Active Directory accounts management.
