Etere Radio Live

One of the most functional radio payouts in the market, Etere Radio Live releases an all-new web presenter view that enhances the user experience and drives further efficiencies in production, payout, and distribution architectures. Etere releases a feature-rich presenter view that you can access from any web browser. The user-friendly interface simplifies the job of a presenter and allows the presenter to follow the flow of the transmission easily. It features real-time data such as current events, live status, and time remaining to the next event. Web support brings the advantages of accessibility and connectivity from the web. It empowers radio presenters with the information they need on a single interface.

Etere Radio Live is a market-proven visual radio automation software. Its software-based architecture enables a streamlined setup with all the functionalities needed to bring a radio channel with video broadcasting on-air. Etere radio-live allows you to manage multiple radio stations, playlists, and live and recorded shows from a single interface. With Radio Live, you can check your playlists and make instant edits directly on the same interface. Moreover, you can also schedule advertisements for a single track or the entire channel.
