

Etere Sat Receiver Cast4me

Cast4me is a user-friendly DLNa server for Windows that allows you to stream TV signals from TV tuners connected to your PC, through the network to multiple client devices on your LAN or via the Internet.

Etere logo

Etere Cast4ME features advanced multiple-streams-per-digital-device capabilities that allows it to stream multiple channels with only a single digital TV tuner.

Etere Sat Receiver Cast4me empowers users with greater flexibility and a user-friendly client to stream TV signal from single TV tuners connected to a PC to multiple client devices on LAN or via the internet.
