# Video on Etere Advanced QC

Etere Advanced QC is a web-based video quality check software built with power-packed features to streamline QC analysis configuration and avoid inaccurate and time-consuming checks.

Etere logo

**Key Features**
- Straight-forward API for seamless integration in third party applications
- Clustering and modular architecture, easy load balancing
- Support for most standard formats including HEVC for compressed 4K content
- Audio loudness analysis including EBU R128
- Syntax error detection
- Access to networked content repositories
- In-depth analysis of contents with frame/waveform detailed view
- Reporting of time codes and frame references
- UNICODE support for extended character sets
- One-time analysis that can be configured with multiple threshold changes
- Effective load balancing capabilities
- Distributed architecture provides high redundancy
- Fault tolerant & fault resilient
- Analyse up to 4 files at the same time with the basic licence
- Fully workflow driven
- QC results integrated in Etere database
