NewTek NDI

With an enduring dedication to empowering users with cutting-edge technology, Etere proudly supports Newtek's newest innovation, NDI6. The integration has undergone rigorous testing to ensure flawless connectivity and streamlined workflows. Now, you can experience effortless operations on the Etere Ecosystem integrated software interface, free from the constraints of additional hardware dependencies. NDI6 offers significant improvements to deliver an immersive production with enhanced image quality. Experience the difference with Etere NDI Playout.

NDI6 brings substantial enhancements, delivering a captivating production experience enriched with superior image quality.

What's New in NDI6?
■Native HDR support for top-notch streaming quality
■Supports 10+ bit colour
■Delivers a wide colour gamut and minimal colour banding
■Delivers seamless transitions and gradients
■Supports PQ and HLG formats
■Expands streaming to most HDR and non-HDR devices
■WAN connectivity is now integrated into cameras via an NDI Bridge utility for hardware
■Seamless experience for anyone sending and receiving video, regardless of the device, platform or location

About Newtek NDI

Newtek Network Device Interface (NDI) is a new open standard for live production IP workflows over Ethernet networks. NDI allows multiple video systems to identify and communicate with one another over IP, and to encode, transmit and receive many streams of high quality, low latency, frame-accurate video and audio in real-time. www.newtek.com/ndi/applications/connect/
