Etere Expands Support for Next-Generation LTO-10 Technology

Etere has unveiled full support for LTO-10 drives, which debuted with 30TB cartridges, representing an upgrade from the 18TB native capacity of LTO-9. This milestone signals a new chapter in scalable storage solutions for Etere users.

Etere logo

By reinforcing its commitment to innovation, Etere continues to invest in advanced technologies that enable organizations to manage their media assets and archives with greater efficiency and confidence. In addition, LTO has confirmed that 40TB cartridges will soon be available for LTO-10 drives, further amplifying system performance and scalability.

The introduction of LTO-10 with 30TB cartridges earlier this year already transformed library capacities. The forthcoming 40TB cartridges now raise the bar even higher.

LTO 10

LTO-10 archive systems, seamlessly integrated with **Etere HSM** continue to provide the proven advantages that organizations rely on, including:

- File-level access
- Robust network compatibility
- LTFS for cartridge interchange
- Microsoft Active Directory–based security
- Automated cartridge replication
- Unlimited offline cartridge support
- Optional private cloud interface
- Media Portal with web-based search, preview, and download for video and image files

LTO Tape

With these advancements, Etere strengthens its leadership in storage innovation, ensuring customers benefit from cutting-edge solutions designed for long-term scalability and reliability.
