Experience the full benefits of Etere's flexible, scalable, fully tapeless and workflow-based solutions which covers the end-to-end media lifecycle: **Media Asset Management, Newsroom, Hierarchical Storage Management (HSM), Automation, Censorship, Airsales, Broadcast Management System (BMS) and Ad Insertion.**

Etere DiskLibrary

DiskLibrary is the latest solution that we will showcase at the event. It is an all-in-one software-based solution that works with a simple PC setup and is a cost-efficient alternative to LTO tapes and ODA. DiskLibrary features greater flexibility and interoperability as it allows the user to use any archive enclosure instead of a dedicated type. For long-term benefits, Etere DiskLibrary provides easy maintenance and upgrades. It can be configured with JBODS and RAID for high performance, fast restores and large capacity for a smaller energy consumption and footprint.
