

## Launch of Broadcast-madeinitaly.com

Etere is a part of Broadcast Made in Italy, a group of established, passionate and Italian broadcast manufacturers and integrators. Broadcast Made in Italy has launched its website at <http://broadcast-madeinitaly.com/>

Broadcast made in Italy

Broadcast Made in Italy has launched its new public website at: <http://broadcast-madeinitaly.com/>

The website is designed to be a one-stop portal to explain the professional solutions of the four companies who have collaborated to launch Broadcast Made in Italy. A calendar section allows visitors to view the upcoming events that Broadcast Made in Italy will be participating and they can book an appointment with the team at [info@broadcast-madeinitaly.com](mailto:info@broadcast-madeinitaly.com).

Broadcast Made in Italy represents a group of four established, passionate and Made-in-Italy broadcast manufacturers and integrators who have come together for a common vision: To showcase our range of high quality, reliable, integrative and open solutions at exhibitions worldwide. The launch is a collaboration between Etere Pte Ltd, AEV Broadcast, TEM Telecomunicazioni Elettroniche Milano SRL and ARET Video and Audio Engineering SRL. We provide a full range of broadcast solutions including both software and hardware spanning all categories of TV and radio production for all your broadcasting needs.

Broadcast Made in Italy

Made in Italy, pride of Italian manufactures, is an expression that symbolizes quality, creativity, originality and characteristics that define Italy and its artist craftsmen. Italian products and goods are highly appreciated for the highest quality, attention to details and innovative design. Today, many Made in Italy brands are appreciated and recognized worldwide for their innovative design and high-quality. Each nation has its own distinctive brand that characterizes its products and makes them stand out from their own kind: Made in Italy expresses excellence of creativity, high tech, functionality and craftsmanship. TV and radio enterprises in Italy have an established history of driving innovations globally. Manufacturers, suppliers, engineering companies and system integrators collaborate to create some of the most innovative broadcast solutions that produce exceptional experiences for the end user.
