CensorMX Dual Monitor

CensorMX

Etere CensorMX Simple is a reliable, powerful and user-friendly Live Censorship and Time Delay platform that allows you to edit or replace any video segment, insert clips or advertisements on the fly, as well as easily mute or bleep any audio segment. It features a dual-monitor design that enables Hi-Res preview alongside a second monitor that is capable of displaying the CensorMX Simple interface with full controls for a seamless operation. CensorMX Simple also offers workspace customization that allows the user to pick the layout that they want or use a default setting. The software is also a client server application that allows a single client to control multiple servers with zero delay technology for preview, making Etere CensorMX Simple a flexible, reliable and cost-effective solution.

Etere CensorMX Simple comes equipped with a comprehensive editing suite containing all essential tools to allow broadcasters to quickly and efficiently replace footages. Its load balanced architecture ensures a fault-resilient and powerful performance. With CensorMX Simple, broadcasters are able to build a library of clips that can be inserted without delay, into time-critical live footages.

Optimised to accomodate smaller broadcasters, CensorMX Simple offers all the necessary features of the usual CensorMX but on a smaller scale, and a lower price.

 Take the first step to achieve the results-driven success that you want. Talk to us at info@etere.com

Censorship Edits

☐ Insert, replace, delete, hide, bleep video
☐ Mute audio, cut to mute (stop on air audio) & cut to black (stop on air signal)
