Etere will present the latest technology and solutions in the Etere Ecosystem solution. Etere solutions are designed to be future-ready and reliable. Its unique architecture is fully scalable, flexible and efficient. It is capable of managing the end-to-end broadcasting and media workflows of companies, fulfilling even the most demanding tasks. Etere Ecosystem solutions include Media Asset Management, Nunzio Newsroom, Hierarchical Storage Management (HSM), Playout Automation, Censorship, Channel in the Cloud, Airsales, Broadcast Management System (BMS) and Dynamic Ad Insertion. Etere Full IP with ETX-M IP Multiviewer empowers users to leverage the benefits of IP without any traditional SDI hardware, cables or other accessories. It features full support for the use of virtual machines and cloud. It is also integrated with Etere ETX-M IP Multiviewer, a software that allows users to manage and adjust up to 9 monitors and 30 sources simultaneously.

Media Asset Management

Etere solutions go beyond the traditional Media Asset Management (MAM) design, with a revolutionary integrated framework that empower media enterprises with complete and accurate control of the entire business workflow. Etere MAM manages media assets from a centralized database backed by an inter-connected workflow system. With Etere MAM, broadcasters are able to optimize the value of their media assets, bring media to the market faster, improve cost efficiency and adapt quickly to market demands. Etere MAM taps on the benefits of the Etere Ecosystem which enables high connectivity and integration across a multimedia company as well as the integration of both internal and external management information across the entire enterprise.

Etere Master Control

The Etere Master Control is a fully automated playout, intricately integrated with all your studio modules. With Etere Master Control, you need only one server to playout, switch, fade dissolve, insert logo and control all the CG functions.
