

## EA1270 ETERE MEMORY

Get more out of your compliance logger software with Etere Memory which equips you with the features to comply with regulatory requirements as well as to analyse audience data, insert logos and timecodes, view/edit recordings, log clips for OTT, VOD and social media delivery.

Etere logo

Etere Memory

**Etere Memory** provides broadcasters with a reliable compliance logger that records and stores all transmitted video and audio in a low resolution format (Mpeg4/WMV), enabling operators to fulfill all broadcast recording laws. Not only that, it allow content creators to re-purpose their content in a cost-effective and easy way. Etere Memory provides the tools to record, create, edit clips, add metadata, transcode and distribute content for VOD, OTT and social media. Etere Memory is a simple and cost-effective software that runs on any Windows computer that enables the recording and viewing of clips at the same time with only a few seconds delay. Etere supports commonly used input cards including Blackmagic and IP input including IP with TS, AIMS and ASPEN. Streaming out from Etere Memory is possible with HTTP, UDP, RTSP & RTMP streaming to flash media server and Wowza Media Server. Etere Memory also supports the H264 format (MPEG-4) which was developed for use in high definition systems such as HDTV, Blu-ray and HD DVD to produce better quality at a lower file size. Etere Memory comes with Etere player for Windows and HTML5 player for web to provide an exceptional viewing experience.
