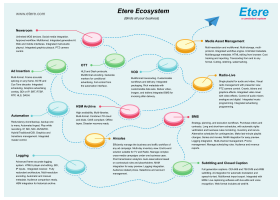
French GUI

Etere Web Multiplatform



Etere Ecosystem

Etere GUI allows user personalization with a newly released French language option. The latest update is ready to use and can be accessed via the user preference settings. Inspired by user feedback, Etere developed the new interface to enhance the user experience. This is one of many regular updates that the Etere R&D team rolls out every year to meet the needs of users from all around the world.

On-Demand Access
Get on-demand access to Etere on both the web-based platform and software application. The mobile-responsive design of Etere makes it convenient for our customers to manage their workflows from any location in the world and across devices. As an international company with customers from all around the world, our goal is to offer a more intuitive user experience that allows easy production, management and delivery of compelling content to multi-platform markets. Etere leverages smart automation technology that enables users to customize workflow solutions to fit perfectly with their systems and to fulfil the business objectives that matter to them.

Intuitive, Reliable and Easy
The simplified look-and-feel of Etere GUI allows users to get to where they need in fewer clicks. Furthermore, the integrative framework of **Etere Ecosystem** expands collaboration capabilities across all business and production units in an organisation. The distributed architecture of Etere solutions also enables a fault-resilient performance across all stages of the broadcast and production workflow.

Real-time Data
Etere provides real-time viability and actionable data to help companies to gain control over their operational efficiency. With the innovative Etere Ecosystem framework and centralised database, users are able to view the statuses of workflows in real-time from a single interface. Each user and user group are also able to assign tasks, send approvals and book appointments in real-time. While technology bridges gaps and automates manual tasks, Etere's 24/7 support is always ready to help you tune up your workflows to achieve your evolving business needs.
