ClassX Technology

Etere Nunzio Newsroom integrates with ClassX graphics using HTML5 plugin, empowering news producers with one of the market's most flexible and revolutionary MOS implementations. ClassX is an IT company that develops high-performance, reliable software and complex systems for graphics content management. The integration gives Etere users a competitive edge in producing a variety of professional graphics for high-value productions at an unbeatable price.

Launched as a game-changer in the market, Etere Nunzio Newsroom is a complete NRCS software with technical sophistication and reliability. Its user-friendly interface and intuitive controls break down complicated processes and streamline news production workflows for easy adoption across the industry. Whether you are a single-station production or a multi-channel enterprise, Etere Nunzio Newsroom empowers you with the best tools to develop a story from the initial idea to the final broadcast, all from a single interface.

Advantages of Etere Nunzio Newsroom and ClassX Integration:

ClassX Plugin with Full HTML5 Support

Integrating ClassX's HTML5 plugin empowers Etere Nunzio Newsroom users with the most reliable MOS experience. It integrates seamlessly with Etere Nunzio and boosts productivity.

Real-Time Preview

With a dedicated graphics server, users can have a real-time preview of graphics and an overview of all data changes in the system. The dedicated graphics server is capable of handling an unlimited number of users.

Ready for the Fastest Graphics Production

With ClassX MOSGateway, Etere Nunzio users can manage multiple channels concurrently. In addition, graphics can be triggered automatically or on demand. Etere can handle various channels concurrently with breakneck speeds and high precision.

User-friendly and Easy to Install

Etere Nunzio Newsroom features an intuitive interface that gets more done with less. It integrates seamlessly into any MOS-compliant NCS and bridges the gap between teams. It also allows the customization of workflows for perfect integration into the production environment.

Seamless Integration and Connectivity

As part of the Etere Ecosystem, Etere Nunzio Newsroom is integrative with other aspects of the broadcasting workflow. In addition, Nunzio Newsroom can connect via MOS with any third-party components; the rundown connects in real-time with Etere Automation and Etere Media Asset Management (MAM).

Social Media Integration

Etere Nunzio Newsroom integrates with social media accounts, including Facebook, LinkedIn, Telegram, Twitter, and Youtube. Users can post graphics to social media, create content to drive engagement, add playlists, and create real-time polls.

Select 3D Effects, Story Templates, and Professional Layouts

Etere empowers users to apply effects, templates, and layouts to their news
