

ETERE PRESS RELEASE

ETERE PRESENTS SHUTTLE PRO

Tolentino (Italy), July 27th 2002 - ETERE presents the new control panel used for preparing the video asset.

It is called Shuttle PRO and its main features are: power, simplicity, innovative and ergonomic design.

It is a necessary instrument for all those who prepare every day the video asset to be broadcasted.

The work is optimized thanks to the major productivity accomplished when using the Shuttle PRO.

The design is not only innovative but also ergonomic: it allows accessing contemporarily with only one hand up to 13 keys and the jog & shuttle knob.

By using only one hand, you will be able to access a multitude of functions and operations.

The knob can make a turn of 360 degrees in any direction, forward and rewind operations are faster than before and it allows being precise frame by frame.
