Receiving Files Easy and Secured as Tape

# Workflow

- Librarian knows a new asset must arrive
- It creates the basic metadata
- Assign this asset to the sender (Agency, producer, production company)
- The sender login in Etere tapeless reception
- See the assets you are expecting
- Upload the files and complete metadata
- As soon the upload is complete a confirmation e-mail is sent to the sender ( with optional attach a low-res copy of the file)
- The Librarian receive a confirmation e-mail

# Asset

The screenshot shows a software interface for managing media assets. At the top, the window title is "Media Library" and the current asset is identified as "CHANNEL 1". The main area contains a form for asset details, including fields for ID (11), Code (ANALYZETHIS), Title (ANALYZE THIS), and Version (1). A toolbar with various icons is located below the form. The "General Data" tab is active, showing fields for Type (TV MOVIE), Production Country (United States), Production Date, and Self-production Percentage (000.00%). A "Warner Bros." logo image is displayed on the right side of the form. Below the form is a table of Genres, with a callout box labeled "Genres" pointing to it. The table lists Genres Code 7 (COMEDY) and 10 (POLITICAL). To the right of the table is a "Stations Enabled" section with a list of three channels: CHANNEL 1, CHANNEL 2 LITE, and CHANNEL 3, each with a checked checkbox. A callout box labeled "Active Stations" points to this list. The background of the slide features a blurred image of a hand holding a tablet displaying a similar interface.

Genres Code	Genres Description
7	COMEDY
10	POLITICAL

Stations Enabled	
<input checked="" type="checkbox"/>	1 CHANNEL 1
<input checked="" type="checkbox"/>	2 CHANNEL 2 LITE
<input checked="" type="checkbox"/>	3 CHANNEL 3
