

**A consistent system**

► **FOR IMMEDIATE RELEASE**

## **ETERE AT NAB 2006**

**ETERE software broadcast solutions from 24th to 27th April  
at booth SU129**

**(See Etere also at SeaChange, Sony, Thomson-Grass Valley booths)**

**Tolentino, April 15<sup>th</sup> 2006** Since 16 years **ETERE Automation** provides the most powerful, flexible, costeffective, high-performance, end-to-end broadcast solutions. A shared framework to manage all the television business: automation, recording, archiving, scheduling, air-time sales, indexing and media asset management.

Now, **ETERE** is very popular in the broadcast market. There are a lot of TV systems where is installed **ETERE**, not only for the playout, but also for the scheduling, traffic, media management, etc. **ETERE** innovative workflow allows you to increase productivity and quality while cutting costs.

**ETERE** has a huge vantage against competitors, it offers a complete solution that include all the aspect of a TV station, automation, scheduling, traffic and media management. It will show to broadcasters an edge technology solution at a reasonable price, with more features than any other. **ETERE** is the only company worldwide able to offer you a single solution in a single package in all 'Double Byte' languages.

**ETERE** will show at NAB its famous **ETERE Automation** software.

It's practically the most powerful, the most scalar and the most liable automation system among all systems offered on market. It controls all those devices which are normally used in any station: videosevers, audio/video routers, master control/mixer video, logo generators, titlers, cart machines for automatic caching, VTRs and all necessary things for your TV. Its flexibility and modularity is adequate for stations of any size or type: national, regional, local, general, specialized, single or multi channel.

Etere Press Release

## The new ETERE's features are:

- **ETERE HSM Enterprise:** it's a system designed for broadcast use, it's not a general purpose system adapted for the broadcast needs. **ETERE HSM** interfaces directly the **ETERE MAM/Indexing** system with the tape library offering an unbeatable performance and easy of use. It uses 2 level cache optimization and partial file retrieving.

- **ETERE Web Publishing:** Your archive system as Multiformat source.

With it you can: define multiple encoding/transcoding profiles, link profiles to destinations, create groups in your archive the link uniform delivery profiles and create distribution lists.

- **ETERE Traffic 16: a complete redesign.** It manages many of the business processes in the sales/traffic and programming areas, delivering competitive advantage through reduced operational/costs and improve efficiencies. **ETERE** will show the new commercial, document and rightsmanagement. Moreover, it's completely integrated with browsing, web integration and the billing management.
